• You must stay in your allotted exhibit space.

All exhibitors are required to keep their materials within their exhibit space. Portable, pop-up back walls are permitted in the back of booth space/tabletop and are subject to placement approval onsite. You are required to notify the exhibits manager if you are bringing in equipment and include size of packaging/crates/pallets. 2. ASCRS reserves the right to decline, prohibit or expel an exhibit which, in its judgement, is out of keeping with the character of the exhibition, this reservation being all inclusive as to person, things, printed matter, product, conduct, etc. Should the exhibit be expelled, space payments will not be refunded.

3. Exhibitors shall be bound by all pertinent laws, codes and regulations of municipal or other authorities having jurisdiction over the exhibit facility or the conducting of said exhibit, together with the rules and regulations of the owners and/or operators of the facility in which the exhibition is held.

4. FDA REGULATIONS
Exhibitors must abide all applicable Food and Drug Administration (FDA) regulations, including but not limited to any or all approval requirements. Exhibitors are reminded that the FDA generally prohibits the advertising or other promotion of investigational or unapproved drugs and devices. The FDA also forbids the commercial promotion of approval drugs or devices for unapproved uses.

Unapproved devices may be displayed only if they are the subject of an effective investigational device exemption (IDE) or if they are the subject of a pending 510 (k) pre-market notification application. Any investigational product that is displayed or graphically depicted within the exhibit must (a) contain no claims of safety or effectiveness, (b) contain no comparative claims to other marketed products, and (c) be accompanied by a sign clearly and prominently stating that the device is limited by federal law to investigational use and is not approved by the FDA for commercial distribution in the United States.

Exhibitors may not sell, commercialize, or take orders or names with respect to an investigational drug or device, or a device that is the subject of appending 510 (k) application, unless limited to research or investigational use. These restrictions are not intended to limit the full exchange of scientific information regarding an investigational drug or device. If the FDA or a court of competent jurisdiction determines that a company’s exhibit at an ASCRS meeting is in violation of any FDA regulations, including but not limited to the promotional restrictions and rules described above, the company may be subject to sanctions, including but not limited to exclusion from exhibiting at subsequent compliance with FDA regulations should be addressed to the appropriate agency within the FDA.

VIOLATIONS
Specific actions may be taken by ASCRS for violation of provision of these guidelines. Violations of any ASCRS policies, rules or regulations may result in the loss of priority points for future space assignments at any ASCRS Meetings and or immediate removal from the exhibit hall and or denial of exhibit space at future meetings. The action taken will be determined on the basis of the particular circumstances of the violations but in cases involving major violations, may include legal action.

EVALUATION OF SPACE APPLICATION/CONTRACT
In order to preserve and maximize the educational value of the technical exhibit program, ASCRS will examine all space applications and evaluate the proposed exhibits to determine whether they satisfy certain basic criteria.

Permission to exhibit does not constitute in any way an ASCRS endorsement or approval of the exhibited products or services or guarantee that space will be assigned. The examination and evaluation of space applications will be performed in accordance with guidelines established by the ASCRS Executive Committee. The principal criteria to be considered in reviewing applications shall include, but not limited to, whether the products or services proposed for exhibition relate specifically to the practice or advancement of ophthalmology generally and/or cataract and refractive surgery specifically, whether the proposed exhibit is of educational value to [ophthalmologist] [cataract and refractive surgeons], and whether the products or services in question are safe and effective.
Every exhibitor applicant who is not or did not exhibit at the ASCRS 2021 Annual Meeting must complete the review process for assignment of exhibit space. An applicant who did at said meeting above, must complete the review process only if there has been a material change in circumstances relating to its company (e.g., a change in ownership, control, or legal status) or in the nature, name, composition, products, labeling, or regulatory status of the products and services to be exhibited, or if the safety or efficacy of the company’s products or services have been called into question through litigation, regulatory proceedings, customer complaints or other reliable source of adverse information.

The materials required for review are the following:
Company profile. To include company history, mission statement, management team bios, and advisory/board of directors listing if applicable. The products and/or services the company plans to exhibit (i.e. product brochures, literature, or samples).
Exhibitors must disclose details on any consumer or government litigation, orders, injunctions, judgements or settlements over the last three years regarding the business practices of the company or the products and services to be exhibited.
Companies with complaints filed against them with state or federal consumer affairs regulatory agencies, the Better Business Bureau, or ASCRS members may be required to provide an explanation of the resolution of those complaints. Exhibitors shall not exhibit any products or services other than those included in their company description or approved in writing by ASCRS. Successfully completing the Exhibit Review Process does not guarantee that you will be assigned booth space. ASCRS meetings consistently sell out of exhibit space and maintain waiting lists. ASCRS exhibit space is assigned on a first come-first served basis to all exhibitors at the ASCRS Winter Symposium. Even where an exhibitor meets the basic criteria described above, ASCRS still reserves the right to deny any request to exhibit based on space limitations, safety concern, failure to comply with these procedures or requirements, past inappropriate conduct by the applicant (including but not limited to failure to comply).

PRIORITY POINTS
Exhibitors will earn Priority Points towards their 2023 exhibit booth space at the ASCRS Annual Meeting.

ASCRS has the discretion to reduce an exhibitor’s accrued priority points towards the ASCRS Annual Meeting based on past inappropriate conduct by the applicant (including but not limited to failure to comply with ASCRS exhibitor rules and regulations) or legal or regulatory actions or consumer/member complaints relating to the safety and efficacy of an applicant’s products or services.

ASCRS will, however, in the event of its not being able to hold an exhibit for any of the above-named reasons, reimburse exhibitors on a pro-rata basis on any amount paid in, less any and all legitimate expenses incurred, such as but not limited to rent, advertising, salaries, operating costs, etc.

GIVEAWAYS
Exhibiting companies may distribute descriptive product literature and samples of their listed products to each booth visitor. Exhibitors who wish to distribute items of educational nature other than product samples must submit a request in writing to Jessica Donohoe at jessica@eyeworld.org by January 21, 2022. Samples of giveaways sent to ASCRS for review will not be returned. Prescription drug samples may be distributed to physicians only in accordance with the Prescription Drug Marketing Act.

Where permitted by law, it is appropriate for companies to offer items that are not substantial value ($100 or less) and do not have value to healthcare professionals outside of their professional responsibilities. For example, an anatomical model for use in the examination room is intended for the education of the patients and would be acceptable. ASCRS, in its sole discretion, shall have the right to prohibit the distribution of any item it deems objectionable or otherwise inappropriate.

Distribution of approved items must not create a nuisance or cause interference with adjoining exhibits.

FLOOR COVERING
ASCRS Winter Symposium exhibit hall is carpeted, and companies are prohibited from providing their own floor covering.

HANGING SIGNS
Hanging signs are strictly prohibited within the exhibit area.
